

AlexandriaBoard

YOUR BOARDGAME COLLECTION

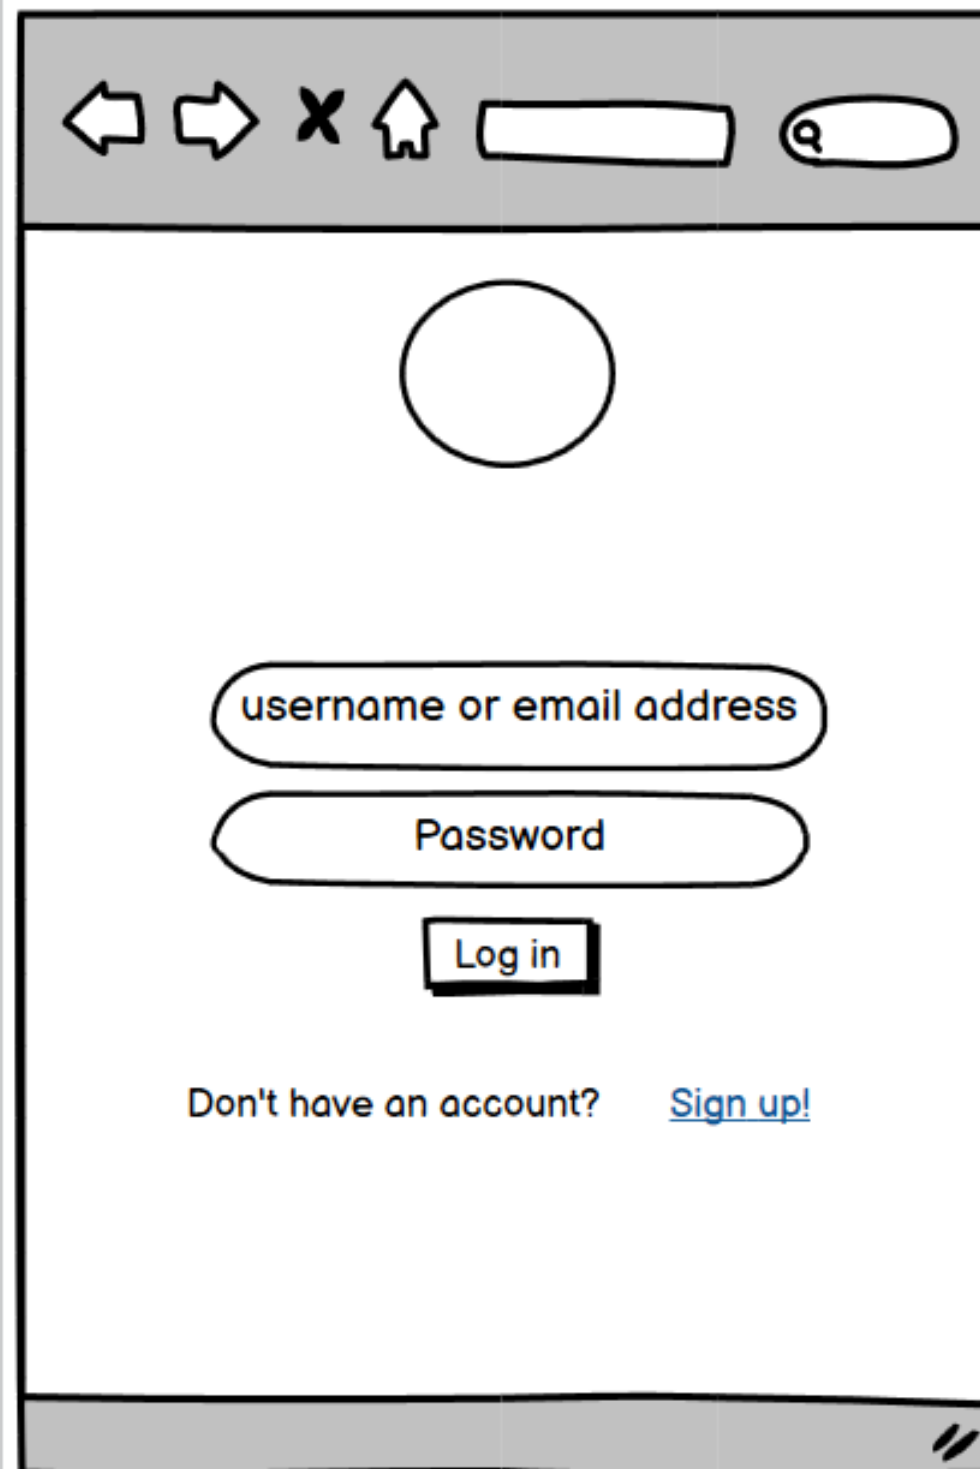

Target/Objective of the App

- List/post your boardgames on the public wall
- Create a library with all the users' boardgame collection

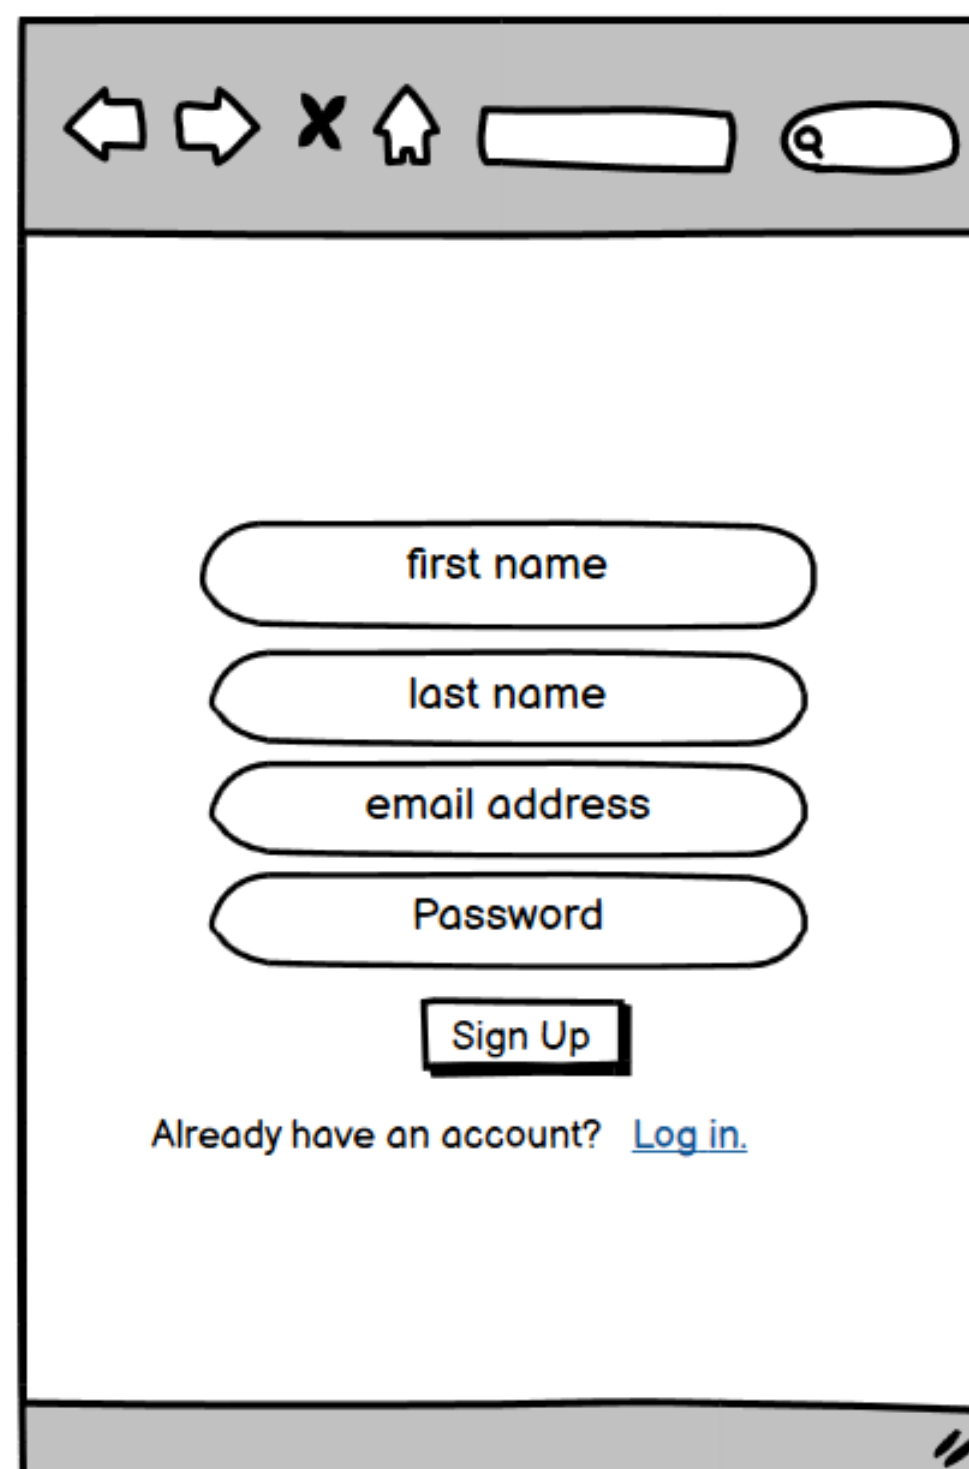

Wireframe

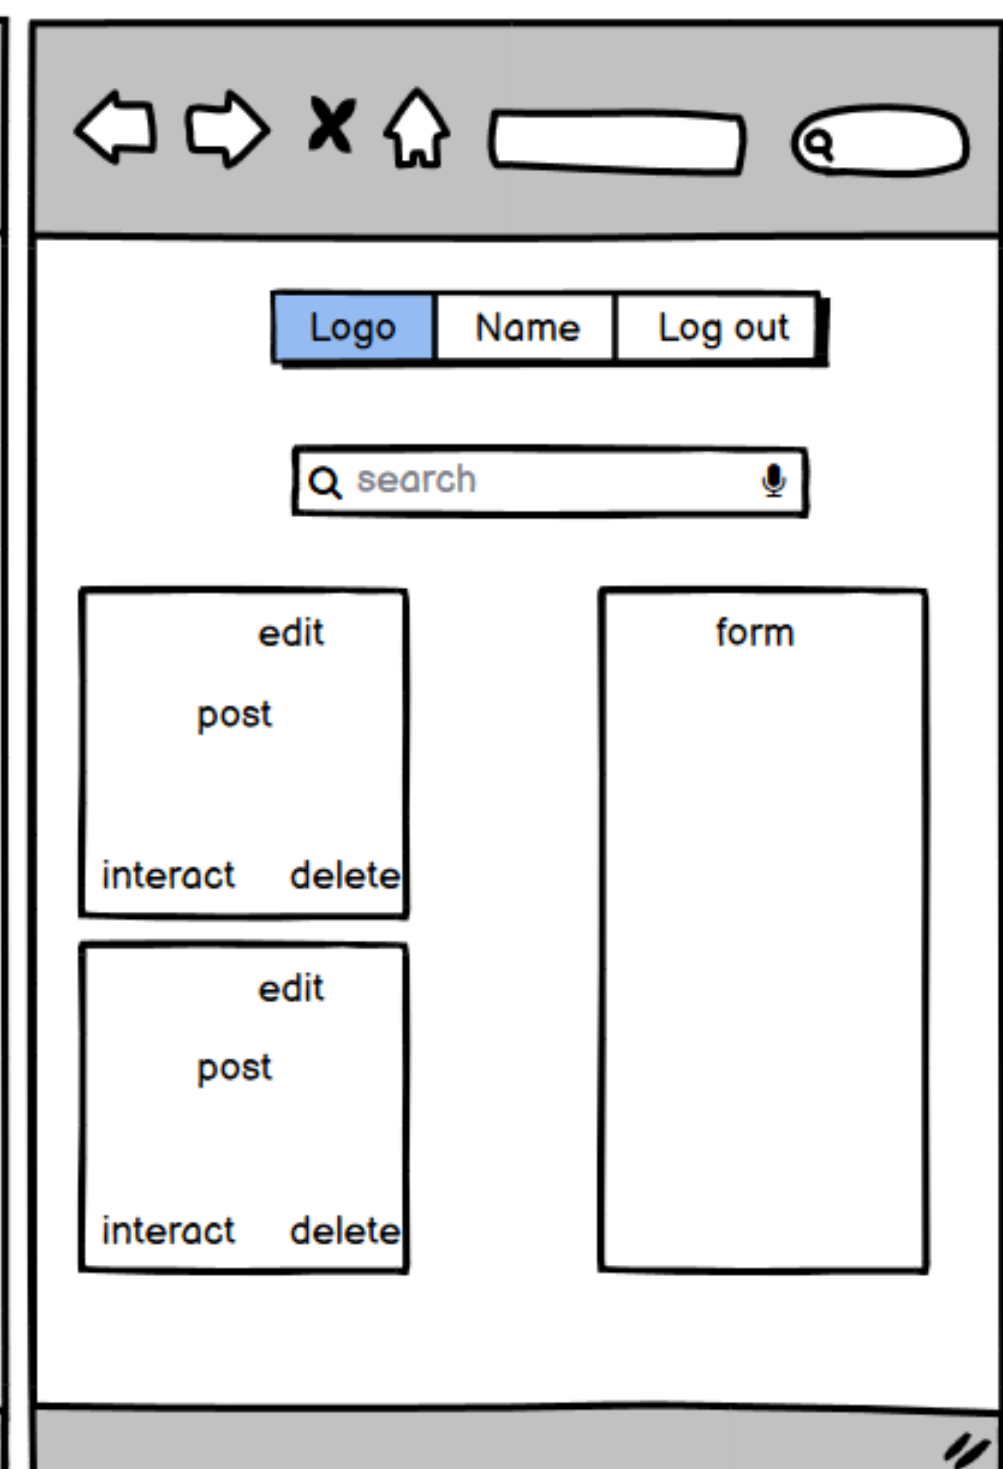

Wireframe for the Log in page. It features a browser-like header with navigation icons (back, forward, close, home) and a search bar. The main content area includes a circular profile picture placeholder, a text input field for 'username or email address', a text input field for 'Password', and a 'Log in' button. At the bottom, there is a link for 'Don't have an account? Sign up!'.

Log in

Wireframe for the Sign Up page. It features a browser-like header with navigation icons (back, forward, close, home) and a search bar. The main content area includes four stacked text input fields for 'first name', 'last name', 'email address', and 'Password', followed by a 'Sign Up' button. At the bottom, there is a link for 'Already have an account? Log in.'.

Sign Up

Wireframe for the Home Page. It features a browser-like header with navigation icons (back, forward, close, home) and a search bar. The main content area includes a navigation bar with 'Logo', 'Name', and 'Log out' links. Below this is a search bar with a microphone icon. The content is organized into two columns. The left column contains two identical blocks, each with an 'edit' link, a 'post' text area, and 'interact' and 'delete' buttons. The right column contains a single 'form' text area.

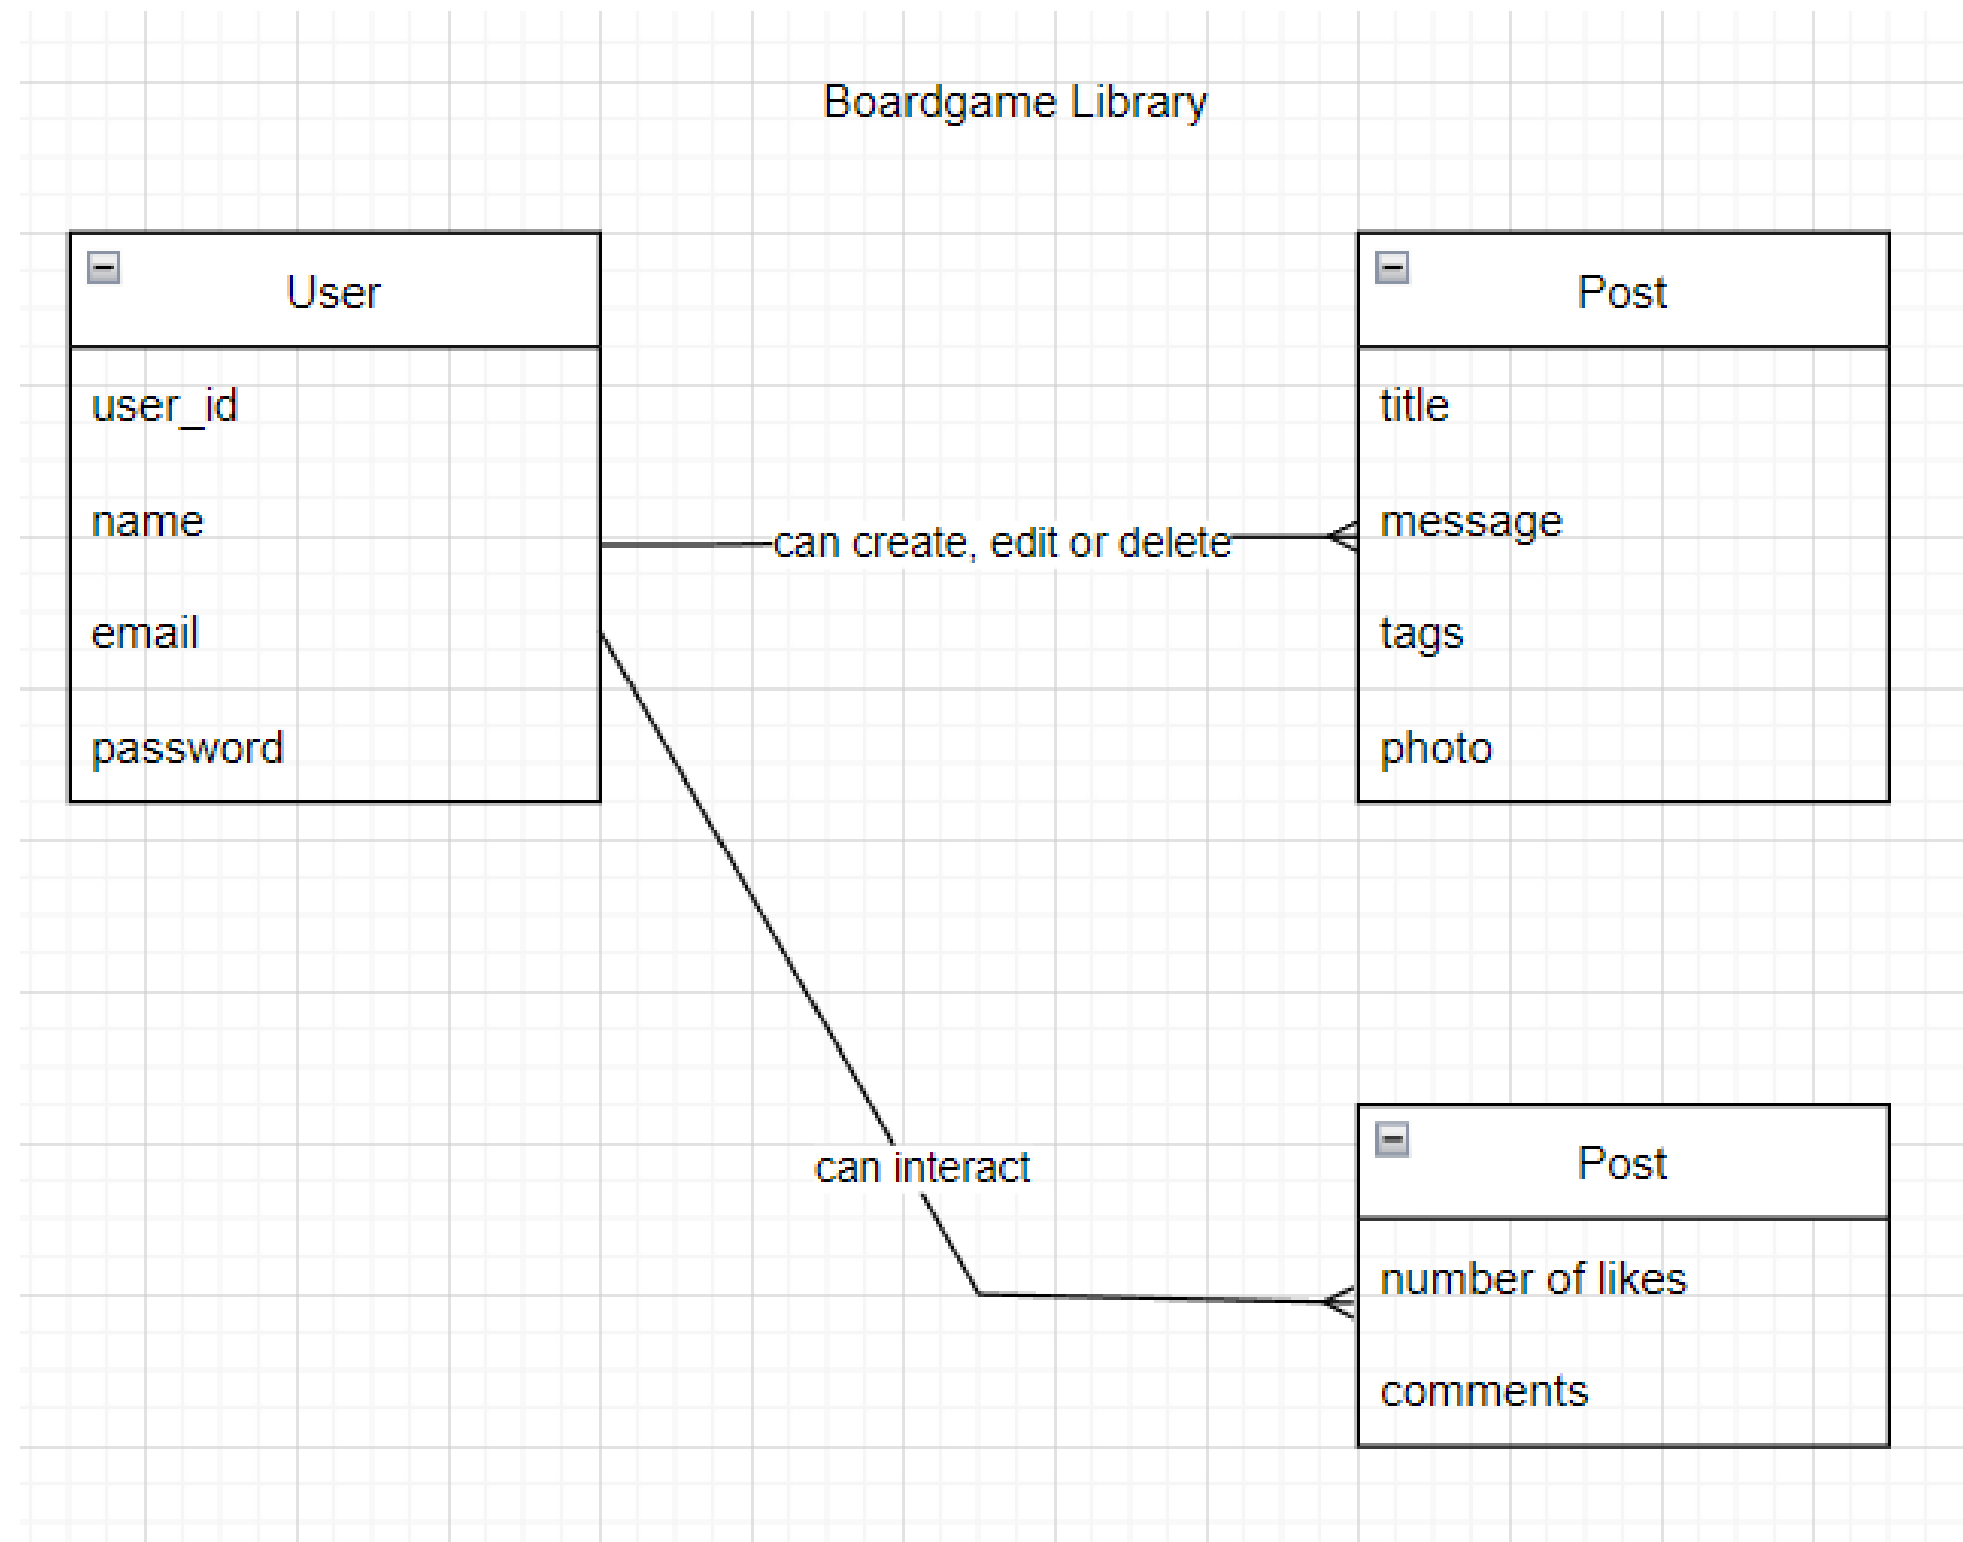

Home Page

Minimum Viable Products

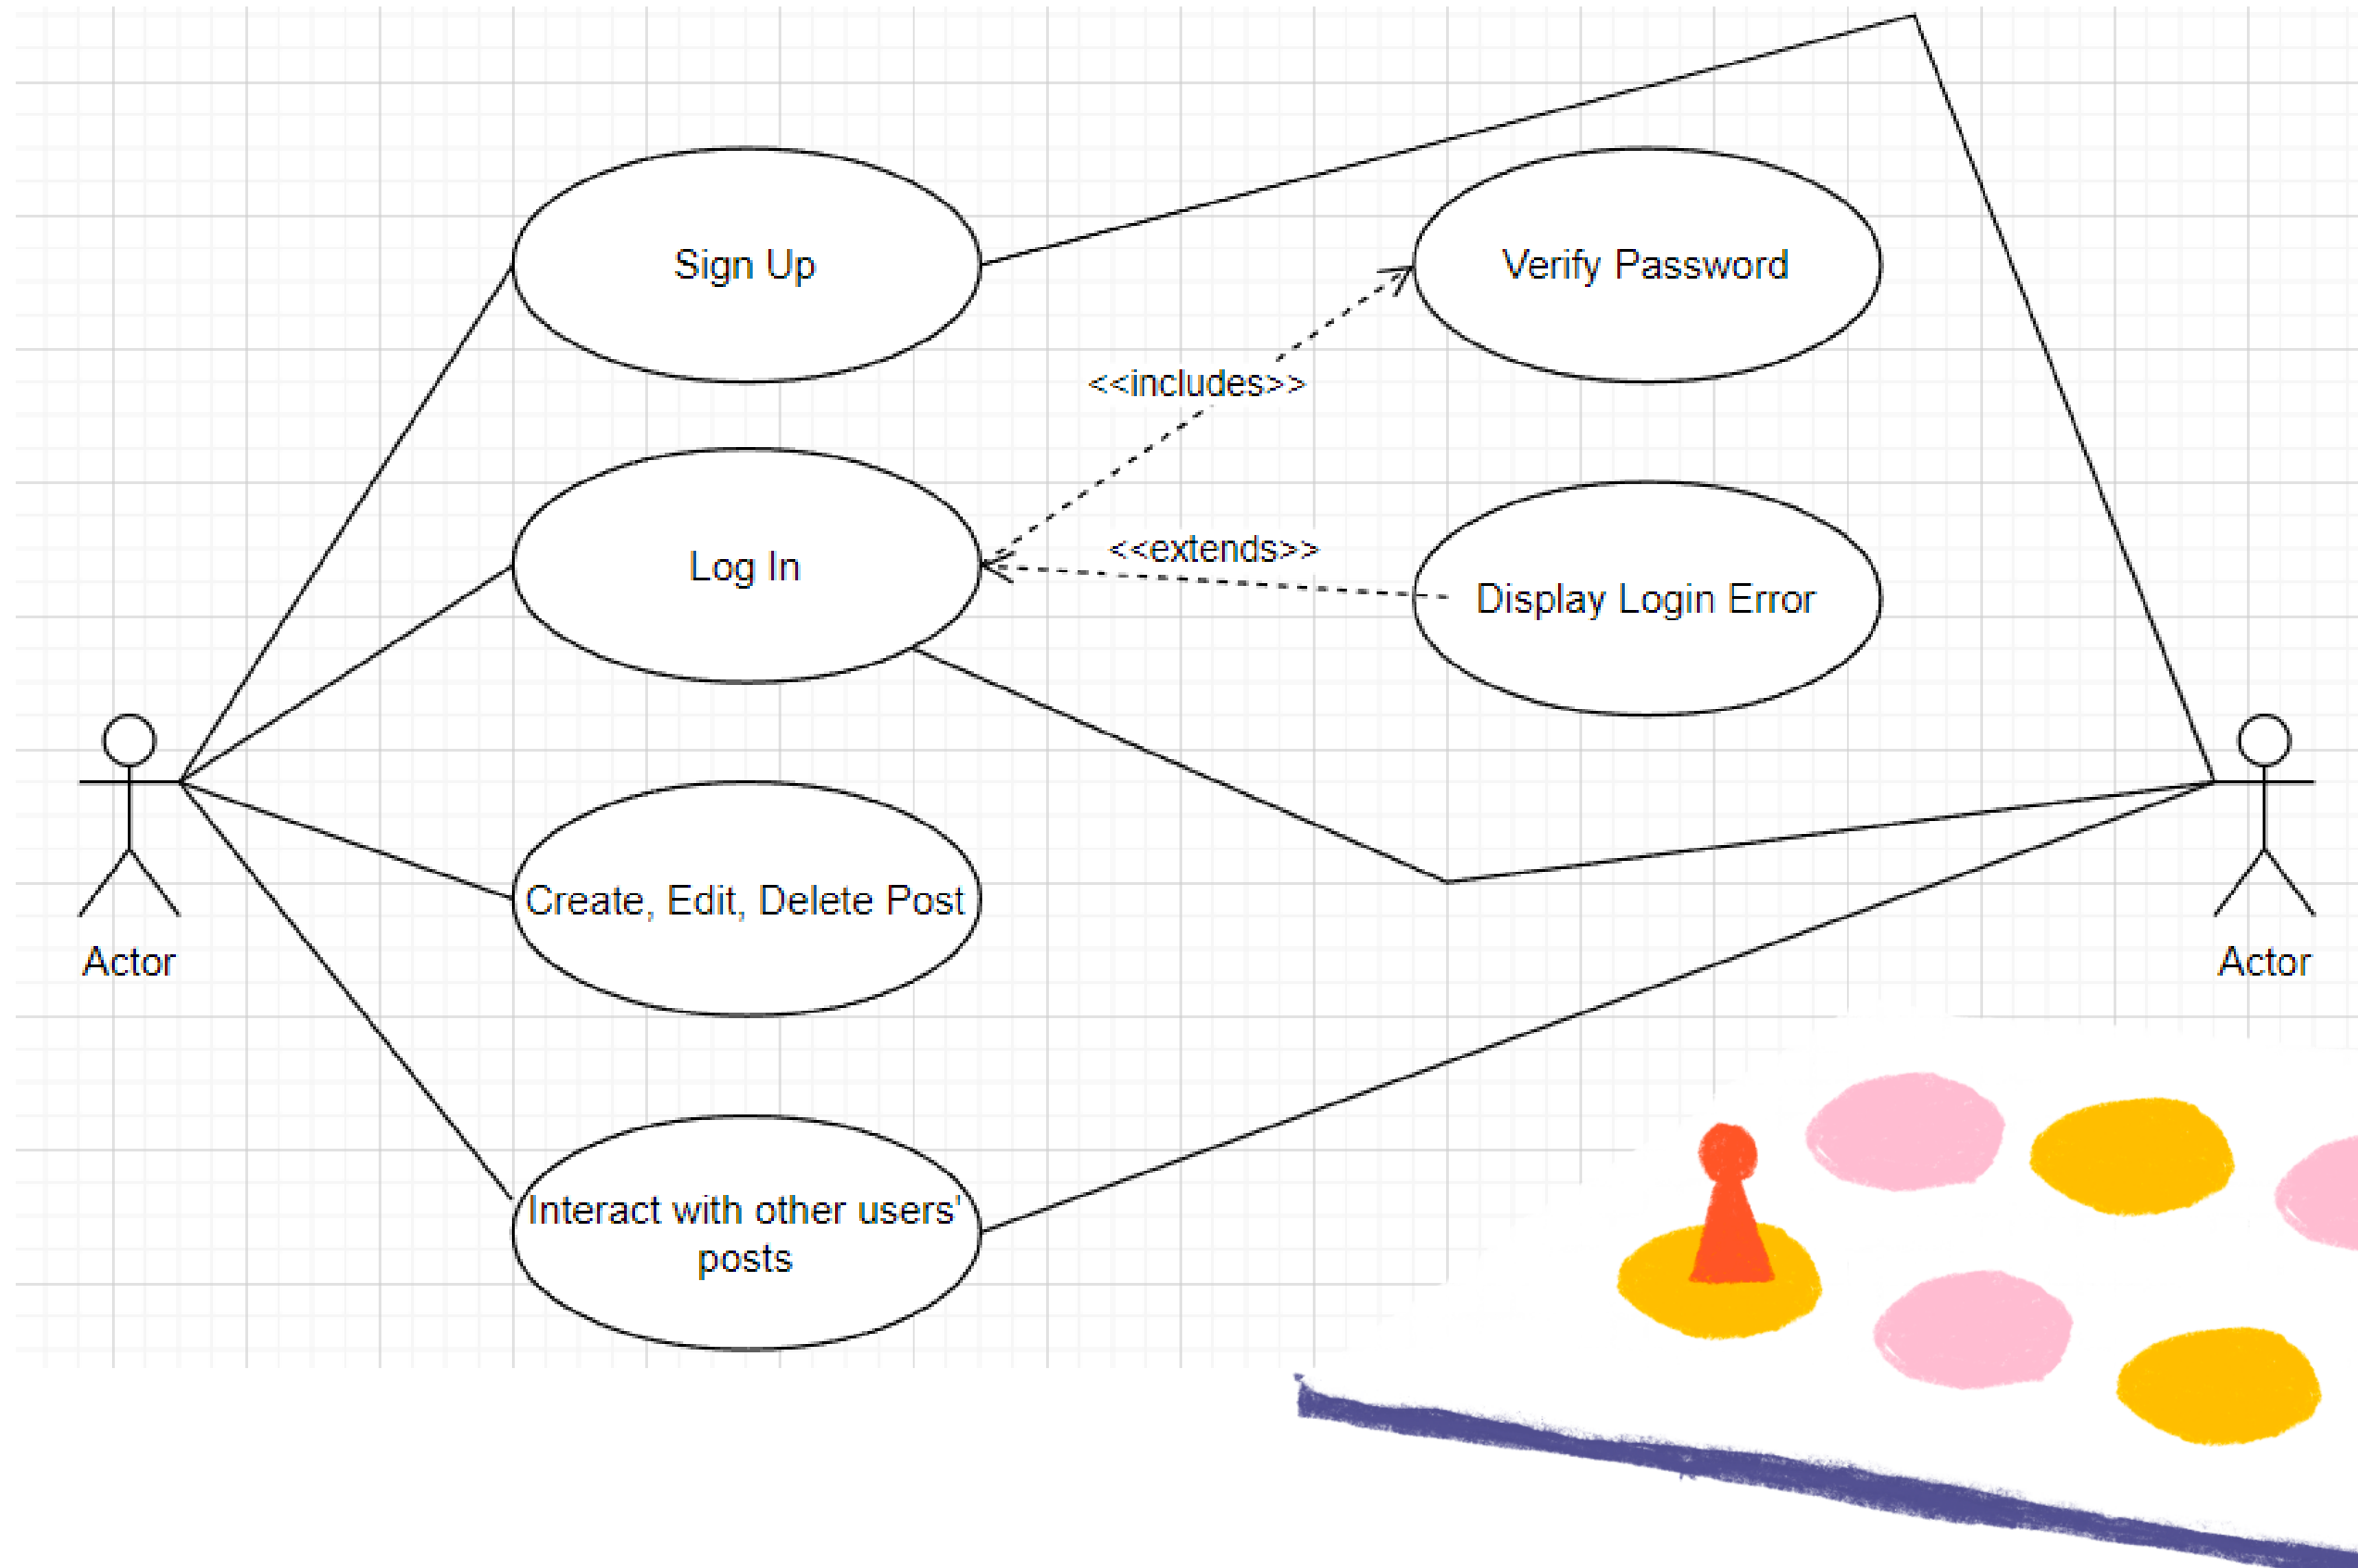

- Users can sign up or log in.
- Users can post and add a picture
- Users can edit and delete their post
- Users can interact with other users' posts
